WILLDAN GROUP, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

June 29, 2012
(Unaudited)

1. BASIS OF PRESENTATION, ORGANIZATION AND OPERATIONS OF THE COMPANY

Basis of Presentation

The accompanying unaudited interim condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission and reflect all adjustments, which consist of only normal recurring adjustments, which are, in the opinion of management, necessary for a fair presentation of the consolidated results for the interim periods presented. Results for the interim periods are not necessarily indicative of results for the full year. Certain information and footnote disclosures normally included in annual consolidated financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to such rules and regulations. The consolidated financial statements should be read in conjunction with Willdan Group, Inc.’s 2011 Annual Report on Form 10-K filed on March 29, 2012.

Nature of Business

Willdan Group, Inc. and subsidiaries (“Willdan Group” or the “Company”) is a provider of professional technical and consulting services to public agencies at all levels of government, public and private utilities and commercial and industrial firms in California and New York. The Company also has operations in Arizona, Florida, Texas, Washington and Washington, D.C. The Company enables these entities to provide a wide range of specialized services without having to incur and maintain the overhead necessary to develop staffing in-house. The Company provides a broad range of complementary services including engineering and planning, energy efficiency and sustainability, economic and financial consulting, and national preparedness and interoperability. The Company’s clients primarily consist of public and governmental agencies, including cities, counties, public utilities, redevelopment agencies, water districts, school districts and universities, state agencies, federal agencies, a variety of other special districts and agencies, private utilities and industry and tribal governments.

Principles of Consolidation

The consolidated financial statements include the accounts of Willdan Group, Inc. and its wholly owned subsidiaries, Willdan Engineering, Willdan Energy Solutions, Public Agency Resources, Willdan Financial Services and Willdan Homeland Solutions. All significant intercompany balances and transactions have been eliminated in consolidation.

Accounting for Contracts

The Company enters into contracts with its clients that contain three principal types of pricing provisions: fixed price, time-and-materials, and unit-based. Revenue on fixed price contracts is recognized on the percentage-of-completion method based generally on the ratio of direct costs (primarily exclusive of depreciation and amortization costs) incurred to date to estimated total direct costs at completion. Revenue on time-and-materials and unit-based contracts is recognized as the work is performed in accordance with the specific terms of the contract. Contracts that provide for multiple services or deliverables are evaluated as multiple element arrangements to determine the appropriate unit of accounting, allocation of contract value, and method of revenue recognition for each element. Revenue for amounts that have been billed but not earned is deferred and such deferred revenue is referred to as billings in excess of costs and estimated earnings on uncompleted contracts in the accompanying consolidated balance sheets.

Adjustments to contract cost estimates are made in the periods in which the facts requiring such revisions become known. When the revised estimate indicates a loss, such loss is provided for currently in its entirety. Claims revenue is recognized only upon resolution of the claim. Change orders in dispute are evaluated as claims. Costs related to un-priced change orders are expensed when incurred and recognition of the related contract revenue is based on an evaluation of the probability of recovery of the costs. Estimated profit is recognized for un-priced change orders if realization of the expected price of the change order is probable.

[Table of Contents](#)

Applying the percentage-of-completion method of recognizing revenue requires the Company to estimate the outcome of its long-term contracts. The Company forecasts such outcomes to the best of its knowledge and belief of current and expected conditions and its expected course of action. Differences between the Company’s estimates and actual results often occur resulting in changes to reported revenue and earnings. Such changes could have a material effect on future consolidated financial statements.

Direct costs of contract revenue consist primarily of that portion of technical and nontechnical salaries and wages that has been incurred in connection with revenue producing projects. Direct costs of contract revenue also include production expenses, subconsultant services and other expenses that are incurred in connection with revenue producing projects.

Direct costs of contract revenue exclude that portion of technical and nontechnical salaries and wages related to marketing efforts, vacations, holidays and other time not spent directly generating revenue under existing contracts. Such costs are included in general and administrative expenses. Additionally, payroll taxes, bonuses and employee benefit costs for all Company personnel are included in general and administrative expenses in the accompanying consolidated statements of operations since no allocation of these costs is made to direct costs of contract revenue. No allocation of facilities costs is made to direct costs of contract revenue. Other companies may classify as direct costs of contract revenue some of the costs that the Company classifies as general and administrative costs. The Company expenses direct costs of contract revenue when incurred.

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts based upon a review of all outstanding amounts on a quarterly basis. Management determines the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Credit risk is generally minimal with governmental entities, but disputes may arise related to these receivable amounts. Accounts receivables are written off when deemed uncollectible. Recoveries of accounts receivables previously written off are recorded when received.

The value of retainage is included in accounts receivable in the accompanying consolidated financial statements. Retainage represents the billed amount that is retained by the customer, in accordance with the terms of the contract, generally until performance is substantially complete. At June 29, 2012 and December 30, 2011, the Company had retained accounts receivable of approximately \$1,086,000 and \$579,000, respectively.

Fair Value of Financial Instruments

The Company’s financial instruments consist primarily of cash, cash equivalents, accounts receivable, costs and estimated earnings in excess of billings on uncompleted contracts, other receivables, prepaid expenses and other current assets, excess of outstanding checks over bank balance, accounts payable, accrued liabilities and billings in excess of costs and estimated earnings on uncompleted contracts and approximate their fair values because of the relatively short period of time between the origination of these instruments and their expected realization or payment. The carrying amounts of debt obligations approximate their fair values since the terms are comparable to terms currently offered by local lending institutions for loans of similar terms to companies with comparable credit risk.

Use of Estimates

The preparation of consolidated financial statements in conformity with generally accepted accounting principles in the U.S. requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the

consolidated financial statements. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Liquidity

The Company had \$5.5 million of cash and cash equivalents as of June 29, 2012. The Company's primary source of liquidity is cash generated from operations. The Company also has funds available under its revolving line of credit with Wells Fargo Bank, National Association ("Wells Fargo"), that matures on April 1, 2013, but the Company's ability to borrow funds under this line of credit is currently subject to Wells Fargo's discretion. While the Company believes that its cash and cash equivalents on hand and cash generated by operating activities will be sufficient to finance its operating activities for at least the next 12 months, if the Company does experience a cash flow shortage, the Company may have difficulty obtaining additional funds on favorable terms, if at all, to meet its obligations as they come due in the normal course of business.

[Table of Contents](#)

2. BUSINESS COMBINATION

On June 9, 2008, the Company acquired all of the outstanding stock of Willdan Energy Solutions, formerly known as Intergy Corporation, a California-based consulting company that assists companies, institutions and agencies with planning and implementing their energy efficiency, water conservation and renewable energy strategies. The acquisition cost recorded by the Company as of June 29, 2012 was \$17.9 million, consisting of \$9.9 million in cash paid at closing, a \$0.2 million net asset value adjustment, a guaranteed payment of \$1.0 million in cash paid in June 2009, an earn-out payment of \$1.3 million paid in August 2009, an earn-out payment of \$2.1 million paid in September 2010, an earn-out payment of \$2.7 million paid in August 2011 and \$0.7 million in transaction costs. The earn-out payments were required because Willdan Energy Solutions achieved certain financial targets over the relevant periods. The Company recorded \$15.2 million of goodwill in connection with the acquisition, and as of June 29, 2012, this entire goodwill amount had been written off (See Note 3).

3. GOODWILL AND OTHER INTANGIBLE ASSETS

As of December 30, 2011, the Company had \$15.2 million of goodwill, all of which related to the Energy Solutions reporting unit, which comprises the Energy Efficiency Services reporting segment. During the three months ended June 29, 2012, the Company determined that all such goodwill was impaired resulting in an impairment charge of \$15.2 million, and, as of June 29, 2012, the Company had no remaining goodwill.

During the three months ended June 29, 2012, the Company determined that a quantitative assessment of its goodwill was warranted for the Energy Solutions reporting unit. This assessment indicated that the estimated fair value of the Energy Solutions reporting unit was less than its carrying value. For this testing, the Company weighted the income approach and the market approach at 80% and 20%, respectively. The Company further determined that all of the remaining goodwill for the Energy Solutions reporting unit was impaired and recognized an impairment charge of \$15.2 million as of June 29, 2012.

The changes in the carrying value of goodwill for the Energy Solutions reporting unit for the six months ended June 29, 2012 were as follows:

	December 30, 2011	Impairment	June 29, 2012
Reporting Unit:			
Energy Solutions	\$ 15,208,000	\$ (15,208,000)	\$ —
	<u>\$ 15,208,000</u>	<u>\$ (15,208,000)</u>	<u>\$ —</u>

The gross amounts and accumulated amortization of the Company's acquired identifiable intangible assets with finite useful lives as of June 29, 2012 and December 30, 2011, included in intangible assets, net in the accompanying consolidated balance sheets, were as follows:

	June 29, 2012		December 30, 2011		Amortization Period (yrs)
	Gross Amount	Accumulated Amortization	Gross Amount	Accumulated Amortization	
Backlog	\$ 920,000	\$ 920,000	\$ 920,000	\$ 920,000	1
Training materials/courses	282,000	252,000	282,000	233,000	5
Non-compete agreements	30,000	30,000	30,000	30,000	3
	<u>\$ 1,232,000</u>	<u>\$ 1,202,000</u>	<u>\$ 1,232,000</u>	<u>\$ 1,183,000</u>	

The Company's amortization expense for acquired identifiable intangible assets with finite useful lives was \$10,000 and \$19,000 for the fiscal three and six months ended June 29, 2012, respectively, as compared to \$13,000 and \$27,000 for the fiscal three and six months ended July 1, 2011. Estimated amortization expense for acquired identifiable intangible assets for the remainder of fiscal 2012 and the succeeding years is as follows:

Fiscal year:	
2012	\$ 18,000
2013	12,000
	<u>\$ 30,000</u>

[Table of Contents](#)

4. EARNINGS PER SHARE (EPS)

Basic EPS is computed by dividing net income (loss) available to common stockholders by the weighted-average number of common shares outstanding. Diluted EPS is computed by dividing net income (loss) by the weighted-average number of common shares outstanding and dilutive potential common shares for the period. Potential common shares include the weighted-average dilutive effects of outstanding stock options using the treasury stock method.

The following table sets forth the number of weighted-average shares used to compute basic and diluted EPS:

	Three Months Ended		Six Months Ended	
	June 29, 2012	July 1, 2011	June 29, 2012	July 1, 2011
Net (loss) income	\$ (16,976,000)	\$ 735,000	\$ (18,387,000)	\$ 444,000
Weighted-average common shares outstanding-basic	7,297,000	7,257,000	7,294,000	7,254,000
Effect of dilutive stock options	—	214,000	—	222,000
Weighted-average common shares outstanding-diluted	7,297,000	7,471,000	7,294,000	7,476,000
(Loss) earnings per share:				
Basic	\$ (2.33)	\$ 0.10	\$ (2.52)	\$ 0.06
Diluted	\$ (2.33)	\$ 0.10	\$ (2.52)	\$ 0.06

For the three months and six months ended June 29, 2012, 689,000 options were excluded from the calculation of dilutive potential common shares, compared to 302,000 options for the same periods last year. These options were not included in the computation of dilutive potential common shares because of the net loss position for the 2012 periods and because the assumed proceeds per share exceeded the average market price per share for the 2011 periods. Accordingly, the inclusion of these options would have been anti-dilutive. For periods in which the Company incurs net losses, dilutive potential common shares are excluded as they would be anti-dilutive.

5. EQUIPMENT AND LEASEHOLD IMPROVEMENTS

Equipment and leasehold improvements consist of the following:

	June 29, 2012	December 30, 2011
Furniture and fixtures	\$ 3,365,000	\$ 3,393,000
Computer hardware and software	6,309,000	6,279,000
Leasehold improvements	813,000	787,000
Equipment under capital leases	785,000	821,000
Automobiles, trucks, and field equipment	475,000	543,000
	11,747,000	11,823,000
Accumulated depreciation and amortization	(10,698,000)	(10,606,000)
Equipment and leasehold improvements, net	\$ 1,049,000	\$ 1,217,000

[Table of Contents](#)

6. ACCRUED LIABILITIES

Accrued liabilities consist of the following:

	June 29, 2012	December 30, 2011
Accrued bonuses	\$ 37,000	\$ 944,000
Paid leave bank	1,554,000	1,415,000
Compensation and payroll taxes	794,000	770,000
Accrued legal	112,000	101,000
Accrued workers' compensation insurance	75,000	24,000
Accrued rent	350,000	320,000
Employee withholdings	262,000	234,000
Client deposits	122,000	247,000
Unvouchered accounts payable	4,875,000	6,083,000
Other	(34,000)	54,000
Total accrued liabilities	\$ 8,147,000	\$ 10,192,000

7. LINE OF CREDIT

The Company currently has a revolving credit agreement with Wells Fargo, which was entered into on December 23, 2011 and became effective as of January 1, 2012. The credit agreement replaces the Company's prior credit facility with Wells Fargo that expired on January 1, 2012. There were \$3.0 million of outstanding borrowings under this agreement as of June 29, 2012.

The Company's credit agreement with Wells Fargo provides for a \$5.0 million revolving line of credit, including a \$5.0 million standby letter of credit sub-facility, and matures on April 1, 2013. Loans made under the revolving line of credit will accrue interest at either (i) a floating rate equal to the prime rate in effect from time to time or (ii) a fixed rate of 2.25% above LIBOR, with the interest rate to be selected by the Company.

Borrowings under the revolving line of credit are guaranteed by all of the Company's subsidiaries except Public Agency Resources (the "Guarantors") and secured by all of the Company's and the Guarantors' accounts receivable and other rights to payment, general intangibles, inventory and equipment. Pursuant to the credit agreement, the Company also must pay a 0.25% fee on unused commitments and customary fees on any letters of credit drawn under the facility.

The credit agreement contains customary representations and affirmative covenants, including financial covenants that require the Company to maintain (i) net income after taxes of at least \$250,000, measured on a rolling four quarter basis, without losses in two consecutive quarters; (ii) a maximum ratio of total funded debt (measured as the sum of all obligations for borrowed money, including subordinated debt, plus all capital lease obligations) to EBITDA of 1.75 to 1.00, measured quarterly on a rolling four quarter basis; and (iii) a minimum asset coverage ratio of 2.50 to 1.00 as of each quarter end, measured as unrestricted cash plus net-billed accounts receivables divided by amounts outstanding and issued letters of credit under the revolving line of credit.

The credit agreement also includes customary negative covenants, including (i) restrictions on the incurrence of additional indebtedness by the Company or the Guarantors other than purchase money indebtedness not to exceed \$2.0 million and indebtedness existing on the date of the credit agreement, (ii) restrictions on the payment of dividends on the Company's stock and redemptions, repurchases or other acquisitions of the Company's stock, except that the Company can repurchase stock with an aggregate fair market value up to \$5.0 million in any calendar year, and (iii) limitations on asset sales, mergers and acquisitions. In addition, the credit agreement includes customary events of default.

As of June 29, 2012, the Company had breached the net income covenant under the credit agreement because it did not have net income of at least \$250,000 measured on a rolling four quarter basis and it sustained net losses during the last two quarters. Additionally, the Company's ratio of total funded debt to EBITDA violated the limits permitted under the credit agreement. Because of these covenant breaches, the Company's ability to borrow additional funds under the credit agreement is currently subject to Wells Fargo's discretion and Wells Fargo could choose to increase the interest rate by 4.0%, make the loans outstanding under the credit agreement immediately due and payable, and/or terminate its commitments to the Company under the credit agreement. Although the Company is seeking a waiver for these covenant breaches and is seeking to amend certain covenants in the credit agreement, Wells Fargo is not obligated to provide any waiver for current or future covenant breaches or modify the terms of the credit agreement.

[Table of Contents](#)

The Company has also financed, from time to time, insurance premiums by entering into unsecured notes payable with insurance companies. During the Company's annual insurance renewals in the fourth quarter of the fiscal year ended December 30, 2011, the Company elected to finance its insurance premiums for fiscal 2012.

8. COMMITMENTS

Leases

The Company is obligated under capital leases for certain furniture and office equipment that expire at various dates through the year 2015.

The Company also leases certain office facilities under noncancellable operating leases that expire at various dates through the year 2015 and is committed under noncancellable operating leases for the lease of computer equipment and automobiles through the year 2014.

Employee Benefit Plans

The Company has a qualified profit sharing plan (the Plan) pursuant to Code Section 401(a) and qualified cash or deferred arrangement pursuant to Code Section 401(k) covering substantially all employees. Employees may elect to contribute up to 50% of compensation limited to the amount allowed by tax laws. Company contributions are made solely at the discretion of the Company's board of directors.

The Company has a discretionary bonus plan for regional managers, division managers and others as determined by the Company president. Bonuses are awarded if certain financial goals are achieved. The financial goals are not stated in the plan; rather they are judgmentally determined each year. In addition, the board of directors may declare discretionary bonuses to key employees and all employees are eligible for what the Company refers to as the "hot hand" bonus program, which pays awards for outstanding performance. The Company's compensation committee of the board of directors determines the compensation of the president.

Post Employment Health Benefits

In May 2006, the Company's board of directors approved providing lifetime health insurance coverage for Win Westfall, the Company's former chief executive officer and current chairman of the board of directors, and his spouse and for Linda Heil, the widow of the Company's former chief executive officer, Dan Heil. These benefits relate to past services provided to the Company. Accordingly, there is no unamortized compensation cost for the benefits.

9. INCOME TAXES

Income taxes are accounted for under the asset and liability method and are determined using an estimated annual effective tax rate. Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the financial reporting basis and tax basis of the Company's assets and liabilities, subject to a judgmental assessment of recoverability of deferred tax assets. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets may not be realized.

The Company recognizes the tax benefit from uncertain tax positions if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense.

The Company recorded an income tax benefit of \$2.7 million and \$3.6 million for the three and six months ended June 29, 2012, respectively, as compared to income tax expense of \$0.2 million for the three and six months ended July 1, 2011. The tax benefit is attributable to the \$15.2 million of goodwill impairment and operating losses of \$6.6 million offset by a valuation allowance of \$5.3 million which was recorded during the three months ended June 29, 2012 due to the uncertainty of realization of deferred tax assets. The effective tax rates for the three and six months ended June 29, 2012 differ from the U.S. federal statutory rate of 35% primarily due to state income tax rates, permanent items that are not deductible for U.S. tax purposes, and the establishment of the valuation allowance during the three months ended June 29, 2012.

[Table of Contents](#)

10. SEGMENT INFORMATION

The Company has four reporting segments: Engineering Services, Energy Efficiency Services, Public Finance Services and Homeland Security Services. The Engineering Services segment consists of Willdan Engineering and Public Agency Resources. The Engineering Services segment offers a broad range of engineering and planning services to our public and private sector clients. The Energy Efficiency Services segment, which consists of Willdan Energy Solutions, provides energy efficiency and sustainability consulting services to utilities, state agencies, municipalities, private industry and non-profit organizations. Prior to December 30, 2011, the energy efficiency and sustainability services were aggregated into the Engineering Services segment. Given the manner in which the chief operating decision maker reviews financial results and allocates resources, these services now comprise a separate reporting segment. Segment information for the comparable prior year period has been restated to conform to the Company's current segment presentation of four operating segments. The Public Finance Services segment, which consists of Willdan Financial Services, provides expertise and support for the various financing techniques employed by public agencies to finance their operations and infrastructure along with the mandated reporting and other requirements associated with these financings. The Homeland Security Services segment, which consists of Willdan Homeland Solutions, provides national preparedness, homeland security consulting, public safety and emergency response services to cities, related municipal service agencies and other entities.

The accounting policies applied to determine the segment information are the same as those described in the summary of significant accounting policies included in the Company's 2011 Annual Report on Form 10-K filed on March 29, 2012. There were no intersegment sales in the three and six months ended June 29, 2012. Management evaluates the performance of each segment based upon income or loss from operations before income taxes. Certain segment asset information including expenditures for long-lived assets has not been presented as it is not reported to or reviewed by the chief operating decision maker. In addition, enterprise-wide service line contract revenue is not included as it is impracticable to report this information for each group of similar services.

Financial information with respect to the reportable segments as of and for the fiscal three and six months ended June 29, 2012 and for the fiscal three and six months ended July 1, 2011 is as follows:

	Engineering Services	Energy Efficiency Services	Public Finance Services	Homeland Security Services	Unallocated Corporate	Intersegment	Consolidated Total
Fiscal Three Months Ended June 29, 2012							
Contract revenue	\$ 8,281,000	\$ 11,578,000	\$ 2,603,000	\$ 1,019,000	\$ —	\$ —	\$ 23,481,000

Net (loss) income	(121,000)	646,000	106,000	(187,000)	—	—	444,000
Segment assets(1)	9,363,000	30,134,000	3,892,000	1,958,000	31,150,000	(23,129,000)	53,368,000

(1) Segment assets represent segment assets, net of intercompany receivables.

[Table of Contents](#)

11. CONTINGENCIES

Claims and Lawsuits

The Company is subject to claims and lawsuits from time to time, including those alleging professional errors or omissions that arise in the ordinary course of business against firms that operate in the engineering and consulting professions. The Company carries professional liability insurance, subject to certain deductibles and policy limits, for such claims as they arise and may from time to time establish reserves for litigation that is considered probable of a loss.

In accordance with accounting standards regarding loss contingencies, the Company accrues an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated, and discloses the amount accrued and an estimate of any reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for the Company's financial statements not to be misleading. The Company does not accrue liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote.

Because litigation outcomes are inherently unpredictable, the Company's evaluation of legal proceedings often involves a series of complex assessments by management about future events and can rely heavily on estimates and assumptions. If the assessments indicate that loss contingencies that could be material to any one of the Company's financial statements are not probable, but are reasonably possible, or are probable, but cannot be estimated, then the Company will disclose the nature of the loss contingencies, together with an estimate of the possible loss or a statement that such loss is not reasonably estimable. While the consequences of certain unresolved proceedings are not presently determinable, and a reasonable estimate of the probable and reasonably possible loss or range of loss in excess of amounts accrued for such proceedings cannot be made, an adverse outcome from such proceedings could have a material adverse effect on the Company's earnings in any given reporting period. However, in the opinion of the Company's management, after consulting with legal counsel, and taking into account insurance coverage, the ultimate liability related to current outstanding claims and lawsuits is not expected to have a material adverse effect on the Company's financial statements.

French v. Willdan Engineering, Superior Court of California, Riverside County

In January 1991, the Company was retained by the City of Calimesa, California to review and process development plans. The Company had provided plan review continuously since that date under various contracts with the city. As the city receives applications from developers for project approvals, the city forwards the project plans to the Company for processing. The Company processes the plans and the city pays the Company for its services. In August 2008, a suit was filed by a city employee alleging that the city processed development applications without first collecting fees from developers to cover the costs of processing. The suit further alleged that even though the Company performed the work requested by the city, the city should not have paid the Company for its work in advance of collecting the developers' fees. The plaintiff sought to recover for the city amounts paid to the Company for processing project plans for which the developer fees have not been paid. On January 11, 2012, this suit proceeded to trial where the Company prevailed. The plaintiff has filed an appeal.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the financial statements included elsewhere in this Quarterly Report and the audited financial statements for the year ended December 30, 2011, included in our Annual Report on Form 10-K (File No. 001-33076). This Quarterly Report contains, in addition to unaudited historical information, forward-looking statements, which involve risk and uncertainties. The words "believe," "expect," "estimate," "may," "will," "could," "plan," or "continue" and similar expressions are intended to identify forward-looking statements. Our actual results could differ significantly from the results discussed in such forward-looking statements. Factors that could cause or contribute to such differences in results and outcomes include, without limitation, those discussed under the headings "Risk Factors" in our 2011 Annual Report on Form 10-K, our Quarterly Report on Form 10-Q for the quarter ended March 30, 2012 and this Quarterly Report on Form 10-Q. Readers are urged not to place undue reliance on these forward-looking statements, which speak only as of the date of this Quarterly Report on Form 10-Q. We undertake no obligation to (and we expressly disclaim any obligation to) revise or update any forward-looking statement, whether as a result of new information, subsequent events, or otherwise (except as may be required by law), in order to reflect any event or circumstance which may arise after the date of this Quarterly Report on Form 10-Q.

Overview

We are a provider of professional technical and consulting services to public agencies at all levels of government, public and private utilities, and commercial and industrial firms. We enable these entities to provide a wide range of specialized services without having to incur and maintain the overhead necessary to develop staffing in-house. We assist our clients with a broad range of complementary services relating to:

- Engineering and Planning;
- Energy Efficiency and Sustainability;
- Economic and Financial Consulting; and
- National Preparedness and Interoperability

We operate our business through a network of offices located primarily in California and New York. We also have operations in Arizona, Florida, Texas, Washington and Washington, D.C. As of June 29, 2012, we had a staff of 512 which includes licensed engineers and other professionals. Historically, our clients have primarily been public agencies in communities with populations ranging from 10,000 to 300,000 people. We believe communities of this size are underserved by large outsourcing companies that tend to focus on securing large federal and state projects, as well as projects for the private sector. Recently, we have begun to provide increased services to public and private utilities that service major metropolitan communities and commercial and industrial firms, particularly in connection with the growth of our energy efficiency and sustainability services. We seek to establish close working relationships with our clients and expand the breadth and depth of the services we provide to them over time.

While we currently serve communities throughout the country, our business with public agencies is concentrated in California and neighboring states. We provide services to approximately 58% of the 482 cities and over 62% of the 58 counties in California. We also serve special districts, school districts, a range of public agencies and private industry. Our business with public and private utilities is concentrated in California and New York.

We were founded in 1964 and Willdan Group, Inc., a Delaware corporation, was formed in 2006 to serve as our holding company. We consist of a family of wholly owned companies that operate within the following segments for financial reporting purposes:

Engineering Services. Our Engineering Services segment includes the operations of our subsidiaries, Willdan Engineering and Public Agency Resources ("PARs"). Willdan Engineering provides civil engineering-related and city planning services to our clients. PARs primarily provides staffing to Willdan Engineering. Contract revenue for the Engineering Services segment represented approximately 33.0% and 36.2% of our consolidated contract revenue for the six months ended June 29, 2012 and July 1, 2011, respectively.

[Table of Contents](#)

Energy Efficiency Services. Our Energy Efficiency Services segment consists of the business of our subsidiary, Willdan Energy Solutions, which offers energy efficiency and sustainability consulting services to utilities, public agencies and private industry. Contract revenue for the Energy Efficiency segment grew 12.8% to \$25.9 million for the six months ended June 29, 2012, as compared to \$23.0 million for our consolidated contract revenue for the six months ended July 1, 2011. This segment is currently our largest segment based on contract revenue, representing approximately 52.9% and 47.3% of our consolidated contract revenue for the six months ended June 29, 2012 and July 1, 2011, respectively.

Public Finance Services. Our Public Finance Services segment consists of the business of our subsidiary, Willdan Financial Services, which offers economic and financial consulting services to public agencies. Contract revenue for the Public Finance Services segment represented approximately 10.0% and 10.1% of our consolidated contract revenue for the six months ended June 29, 2012 and July 1, 2011, respectively.

Homeland Security Services. Our Homeland Security Services segment consists of the business of our subsidiary, Willdan Homeland Solutions, which offers national preparedness and interoperability services and communications and technology solutions. Contract revenue for our Homeland Security Services segment represented approximately 4.1% and 6.4% of our consolidated contract revenue for the six months ended June 29, 2012 and July 1, 2011, respectively.

Recent Developments

Revolving Credit Facility. As of June 29, 2012, we had breached the net income covenant under our credit agreement with Wells Fargo Bank, National Association (“Wells Fargo”) because we did not have net income of at least \$250,000 measured on a rolling four quarter basis and we sustained net losses during the last two quarters. Additionally, our ratio of total funded debt to EBITDA violated the limits permitted under the credit agreement. Because of these covenant breaches, our ability to borrow additional funds under the credit agreement is currently subject to Wells Fargo’s discretion and Wells Fargo could choose to increase the interest rate by 4.0%, make the loans outstanding under the credit agreement immediately due and payable, and/or terminate its commitments to us under the credit agreement. Although we are seeking a waiver for these covenant breaches and are seeking to amend certain covenants in the credit agreement, Wells Fargo is not obligated to provide any waiver for current or future covenant breaches or modify the terms of the credit agreement. See “Management’s Discussion and Analysis of Financial Condition and Results of Operation—Outstanding Indebtedness.”

Impairment Charges. During the three months ended June 29, 2012, we determined that a quantitative assessment of our goodwill was warranted for the Energy Solutions reporting unit. This assessment indicated that the estimated fair value of such reporting unit was less than its carrying value. For this testing, we weighted the income approach and the market approach at 80% and 20%, respectively. We further determined that all of the remaining goodwill for the Energy Solutions reporting unit was impaired and recognized an impairment charge of \$15.2 million as of June 29, 2012.

Components of Income and Expense

Contract Revenue

We provide our services under contracts, purchase orders or retainer letters. The contracts we enter into with our clients contain three principal types of pricing provisions: time and materials, unit based, and fixed price. Revenue on our time and materials and unit based contracts are recognized as the work is performed in accordance with specific terms of the contract. Approximately 35.0% of our contracts are based on contractual rates per hour plus costs incurred. Some of these contracts include maximum contract prices, but the majority of these contracts are not expected to exceed the maximum. Contract revenue on our fixed price contracts is determined on the percentage of completion method based generally on the ratio of direct costs incurred to date to estimated total direct costs at completion. Many of our fixed price contracts are relatively short in duration, thereby lowering the risks of not properly estimating the percent complete.

Adjustments to contract cost estimates are made in the periods in which the facts requiring such revisions become known. When the revised estimate indicates a loss, such loss is recognized currently in its entirety. Claims revenue is recognized only upon resolution of the claim. Change orders in dispute are evaluated as claims. Costs related to un-priced change orders are expensed when incurred and recognition of the related contract revenue is based on an evaluation of the probability of recovery of the costs. Estimated profit is recognized for un-priced change orders if realization of the expected price of the change order is probable.

[Table of Contents](#)

Our contracts come up for renewal periodically and at the time of renewal may be subject to renegotiation, which could impact the profitability on that contract. In addition, during the term of a contract, public agencies may request additional or revised services which may impact the economics of the transaction. Most of our contracts permit our clients, with prior notice, to terminate the contracts at any time without cause. While we have a large volume of transactions, the renewal, termination or modification of a contract, in particular our contract with Consolidated Edison of New York, may have a material adverse effect on our consolidated operations.

Direct Costs of Contract Revenue

Direct costs of contract revenue consist primarily of subconsultant services and that portion of technical and nontechnical salaries and wages that have been incurred in connection with revenue producing projects. Direct costs of contract revenue also include production expenses and other expenses that are incurred in connection with revenue producing projects. Direct costs of contract revenue generally exclude depreciation and amortization, that portion of technical and nontechnical salaries and wages related to marketing efforts, vacations, holidays and other time not spent directly generating revenue under existing contracts. Such costs are included in general and administrative expenses. Additionally, payroll taxes, bonuses and employee benefit costs for all of our personnel are included in general and administrative expenses since no allocation of these costs is made to direct costs of contract revenue. No allocation of facilities costs is made to direct costs of contract revenue nor is depreciation and amortization allocated to direct costs. We expense direct costs of contract revenue when incurred.

As a firm that provides multiple and diverse services, we do not believe gross margin is a consistent or appropriate indicator of our performance and therefore we do not use this measure as construction contractors and other types of consulting firms may. Other companies may classify as direct costs of

contract revenue some of the costs that we classify as general and administrative expenses. As a result, our direct costs of contract revenue may not be comparable to direct costs for other companies, either as a line item expense or as a percentage of contract revenue.

General and Administrative Expenses

General and administrative expenses include the costs of the marketing and support staffs, other marketing expenses, management and administrative personnel costs, payroll taxes, bonuses and employee benefits for all of our employees and the portion of salaries and wages not allocated to direct costs of contract revenue for those employees who provide our services. General and administrative expenses also include facility costs, depreciation and amortization, professional services, legal and accounting fees and administrative operating costs. Within general and administrative expenses, “Other” includes expenses such as provision for billed or unbilled receivables, professional services, legal and accounting, computer costs, travel and entertainment and marketing costs. We expense general and administrative costs when incurred.

Critical Accounting Policies

This discussion and analysis of financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with generally accepted accounting principles in the U.S., or GAAP. To prepare these financial statements in conformity with GAAP, we must make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amount of revenue and expenses in the reporting period. Our actual results may differ from these estimates. We have provided a summary of our significant accounting policies in Note 1 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 30, 2011. We describe below those accounting policies that require material subjective or complex judgments and that have the most significant impact on our financial condition and results of operations. Our management evaluates these estimates on an ongoing basis, based upon information currently available and on various assumptions management believes are reasonable as of the date of this report.

[Table of Contents](#)

Contract Accounting

Applying the percentage-of-completion method of recognizing revenue requires us to estimate the outcome of our long-term contracts. We forecast such outcomes to the best of our knowledge and belief of current and expected conditions and our expected course of action. Differences between our estimates and actual results often occur resulting in changes to reported revenue and earnings. Such changes could have a material effect on our future consolidated financial statements.

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts based upon our review of all outstanding amounts on a monthly basis. We determine the allowance for doubtful accounts by identifying troubled accounts and by using historical experience applied to an aging of accounts. Our credit risk is minimal with governmental entities. Accounts receivable are written off when deemed uncollectible. Recoveries of accounts receivable previously written off are recorded when received.

For further information on the types of contracts under which we perform our services, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Components of Income and Expense—Contract Revenue” elsewhere in this report.

Goodwill

We test goodwill, at least annually, for possible impairment. Accordingly, we complete our annual testing of goodwill as of the last day of the first month of our fourth fiscal quarter each year to determine whether there is impairment. In addition to our annual test, we regularly evaluate whether events and circumstances have occurred that may indicate a potential impairment of goodwill. We recognized a goodwill impairment charge of \$15.2 million related to our Energy Solutions reporting unit for the fiscal three months ended June 29, 2012. Following this impairment charge, none of our reporting units have any goodwill remaining.

We test our goodwill for impairment at the level of our reporting units, which are components of our operating segments. In September 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update No. 2011-08 (“ASU 2011-08”), *Intangibles—Goodwill and Other (Topic 350): Testing Goodwill for Impairment*. This accounting guidance allows companies to perform a qualitative assessment on goodwill impairment to determine whether a quantitative assessment is necessary. The guidance is for goodwill impairment tests performed in interim and annual periods for fiscal years beginning after December 15, 2011. The process of testing goodwill for impairment, pursuant to ASU 2011-08, now involves an optional qualitative assessment on goodwill impairment of our reporting units to determine whether a quantitative assessment is necessary. If a quantitative assessment is warranted, we then determine the fair value of the applicable reporting units. To estimate the fair value of our reporting units, we use both an income approach based on management’s estimates of future cash flows and other market data and a market approach based upon multiples of EBITDA earned by similar public companies. For our annual impairment testing in fiscal 2011, we weighted the income approach and the market approach at 80% and 20%, respectively. The income approach was given a higher weight because it has a more direct correlation to the specific economics of the reporting units than the market approach, which is based on multiples of public companies that, although comparable, may not provide the same mix of services as our reporting units.

Once the fair value is determined, we then compare the fair value of the reporting unit to its carrying value, including goodwill. If the fair value of the reporting unit is determined to be less than the carrying value, we perform an additional assessment to determine the extent of the impairment based on the implied fair value of goodwill compared with the carrying amount of the goodwill. In the event that the current implied fair value of the goodwill is less than the carrying value, an impairment charge is recognized.

Inherent in such fair value determinations are significant judgments and estimates, including but not limited to assumptions about our future revenue, profitability and cash flows, our operational plans and our interpretation of current economic indicators and market valuations. To the extent these assumptions are incorrect or economic conditions that would impact the future operations of our reporting units change, any goodwill may be deemed to be impaired, and an impairment charge could result in a material adverse effect on our financial position or results of operation.

During the three months ended June 29, 2012, we determined that a quantitative assessment of our goodwill was warranted for the Energy Solutions reporting unit. This assessment indicated that the estimated fair value of such reporting unit was less than its carrying value. For this testing, we weighted the

income approach and the market approach at 80% and 20%, respectively. We further determined that all of the remaining goodwill for the Energy Solutions reporting unit was impaired and recognized an impairment charge of \$15.2 million as of June 29, 2012.

[Table of Contents](#)

Accounting for Claims Against the Company

We accrue an undiscounted liability related to claims against us for which the incurrence of a loss is probable and the amount can be reasonably estimated. We disclose the amount accrued and an estimate of any reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements not to be misleading. We do not accrue liabilities related to claims when the likelihood that a loss has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote. Losses related to recorded claims are included in general and administrative expenses.

Determining probability and estimating claim amounts is highly judgmental. Initial accruals and any subsequent changes in our estimates could have a material effect on our consolidated financial statements.

Income Taxes

Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are recognized for the future tax consequences of temporary differences between the financial reporting basis and tax basis of our assets and liabilities, subject to a judgmental assessment of recoverability of deferred tax assets. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. A valuation allowance is recorded when it is more likely than not that some of the deferred tax assets may not be realized.

We recognize the tax benefit from uncertain tax positions if it is more likely than not that the tax positions will be sustained on examination by the tax authorities, based on the technical merits of the position. The tax benefit is measured based on the largest benefit that has a greater than 50% likelihood of being realized upon ultimate settlement. We recognize interest and penalties related to unrecognized tax benefits in income tax expense.

Results of Operations

The following table sets forth, for the periods indicated, certain information derived from our consolidated statements of operations expressed as a percentage of contract revenue.

Statement of Operations Data	Fiscal Three Months Ended		Fiscal Six Months Ended	
	June 29, 2012	July 1, 2011	June 29, 2012	July 1, 2011
Contract revenue	100.0%	100.0%	100.0%	100.0%
Direct costs of contract revenue:				
Salaries and wages	25.5	25.7	24.4	26.8
Subconsultant services	47.0	25.4	44.9	28.4
Other direct costs, net	0.4	9.0	0.8	4.7

[Table of Contents](#)

Three Months Ended June 29, 2012 Compared to Three Months Ended July 1, 2011

Contract revenue. Our contract revenue was \$23.5 million for the three months ended June 29, 2012, with \$8.3 million attributable to the Engineering Services segment, \$11.6 million attributable to the Energy Efficiency Services segment, \$2.6 million attributable to the Public Finance Services segment, and \$1.0 million attributable to the Homeland Security Services segment. Consolidated contract revenue decreased \$2.3 million, or 9.0%, to

\$23.5 million for the three months ended June 29, 2012 from \$25.8 million in the three months ended July 1, 2011. This decrease was due primarily to a decrease of \$1.2 million, or 9.3%, in contract revenue of the Energy Efficiency Services segment as a result of delays in the renewal of contracts for the energy efficiency, sustainability and renewable energy services of our subsidiary, Willdan Energy Solutions. For the three months ended June 29, 2012 as compared to the three months ended July 1, 2011, contract revenue decreased \$0.6 million, or 6.3%, and \$0.6 million, or 38.2%, for our Engineering Services Segment and Homeland Security Services segments, respectively, and remained flat for our Public Finance Services segment.

Contract revenue for the Energy Efficiency Services segment decreased primarily because of delays in the renewal of contracts for energy efficiency services in the states of California and New York. Contract revenue for the Engineering Services segment continues to be impacted by the decline in the California residential housing market and state and local government budget cuts. Our engineering Services Segment which has traditionally been tied to residential housing in California as well as California municipalities remains flat. Revenue in the Homeland Security Services segment decreased due to lower levels of activity in the traditional planning, training and exercise consulting services business. We have seen modest growth in both revenue and profit in the Public Finance Services Segment.

Direct costs of contract revenue. Direct costs of contract revenue were \$17.1 million for the three months ended June 29, 2012, with \$4.8 million attributable to the Engineering Services segment, \$10.8 million attributable to the Energy Efficiency Services segment, \$1.0 million attributable to the Public Finance Services segment, and \$0.5 million attributable to the Homeland Security Services segment. Overall, direct costs increased by \$1.6 million, or 10.3%, to \$17.1 million for the three months ended June 29, 2012, from \$15.5 million for the three months ended July 1, 2011. This increase is attributable to increases in direct costs within our Energy Efficiency Services, Engineering Services and Public Finance Services segments of \$1.7 million, or 19.0%, \$0.1 million, or 1.6% and \$0.1 million, or 11.3%, respectively, partially offset by a decrease in direct costs of contract revenue of \$0.3 million, or 35.9%, in our Homeland Security Services segment.

Direct costs increased primarily as a result of an increase of \$4.5 million in subconsultant services, primarily utilized in our Energy Efficiency Services segment, partially offset by decreases in other direct costs and salaries and wages of \$2.2 million and \$0.7 million, respectively. Within direct costs of contract revenue, subconsultant services increased to 47.0% of contract revenue for the three months ended June 29, 2012 from 25.4% of contract revenue for the three months ended July 1, 2011. In the first half of 2012 there was a concentration of direct installation energy efficiency measures, which resulted in an increase in subconsultant services and other direct costs provided by our subsidiary Willdan Energy Solutions. Salaries and wages categorized as direct costs of contract revenue decreased as a result of decreased chargeability of labor, resulting in more salaries and wages being allocated to general and administrative expenses, and increased use of subconsultants to provide certain services instead of full-time employees. Other direct costs decreased due to lower pass through costs and subcontractor services incurred and not yet billed.

[Table of Contents](#)

General and administrative expenses. General and administrative expenses increased by \$16.6 million, or 177.8%, to \$25.9 million for the three months ended June 29, 2012 from \$9.3 million for the three months ended July 1, 2011. This increase reflected increases of \$16.8 million and \$0.1 million in general and administrative expenses of the Energy Efficiency Services and the Engineering Services segments, respectively. General and administrative expenses decreased by \$0.3 million for our Homeland Security Services segment, and remained flat for our Public Finance Services segment. Our unallocated corporate expenses also remained flat. General and administrative expenses as a percentage of contract revenue was 110.5% for the three months ended June 29, 2012 as compared to 36.2% for the three months ended July 1, 2011.

Of the \$16.6 million increase in general and administrative expenses, approximately \$15.2 million resulted from a goodwill impairment charge we recognized relating to our Energy Efficiency Services segment. See “—Components of Interest and Expense—Goodwill.” Salaries and wages, payroll taxes and employee benefits also increased by \$0.5 million, primarily as a result of decreased chargeability of labor. As discussed above under “—Components of Income and Expense—Direct Costs of Contract Revenue,” we do not allocate that portion of salaries and wages not related to time spent directly generating revenue to direct costs of contract revenue and project delays in our Energy Efficiency Services segment resulted in more unallocated time. The remaining \$0.9 million increase relates to other general and administrative expenses and is primarily attributable to increases in provision for uncollectible costs and estimated earnings in excess of billings on uncompleted contracts, other expenses, professional service fees, and marketing expenses. These increases were partially offset by a decrease of \$0.1 million in facilities and facility related expenses.

(Loss) income from operations. As a result of the above factors, our operating loss was \$19.6 million for the three months ended June 29, 2012, as compared to operating income of \$1.0 million for the three months ended July 1, 2012. Loss from operations was primarily due to a goodwill impairment charge of \$15.2 million. Loss from operations as a percentage of contract revenue was 83.4% for the three months ended June 29, 2012, as compared to income from operations as a percentage of contract revenue of 3.7% in the prior year period.

Other expense. Other expense, net was \$50,000 for the three months ended June 29, 2012, as compared to \$20,000 for the three months ended July 1, 2011. The increase is primarily the result of higher interest expense due to increased borrowings under our line of credit.

Income tax (benefit) expense. We recorded an income tax benefit of \$2.7 million for the three months ended June 29, 2012, as compared to an income tax expense of \$0.2 million for the three months ended July 1, 2011. We recorded a \$5.3 million valuation allowance for the three months ended June 29, 2012. We believe it is more likely than not that a tax benefit resulting from a net loss will be realized.

Net (loss) income. As a result of the above factors, our net loss was \$17.0 million for the three months ended June 29, 2012 compared to a net income of \$0.7 million for the three months ended July 1, 2011.

Six Months Ended June 29, 2012 Compared to Six Months Ended July 1, 2011

Contract revenue. Our contract revenue was \$48.9 million for the six months ended June 29, 2012, with \$16.1 million attributable to the Engineering Services segment, \$25.9 million attributable to the Energy Efficiency Services segment, \$4.9 million attributable to the Public Finance Services segment, and \$2.0 million attributable to the Homeland Security Services segment. Consolidated contract revenue for the six months ended June 29, 2012 increased \$0.4 million, or 0.8%, to \$48.9 million from \$48.6 million for the six months ended July 1, 2011, reflecting an increase of \$2.9 million, or 12.8%, in contract revenue for the Energy Efficiency Services segment and decreases of \$1.4 million, or 8.2%, and \$1.1 million, or 35.2%, in contract revenue for our Engineering Services and Homeland Security Services segments, respectively. Contract revenue for our Public Finance Services segment remained flat for the six months ended June 29, 2012 as compared to the six months ended July 1, 2011.

Contract revenue for the Energy Efficiency Services segment increase primarily relates to an increase in the direct installation of energy efficiency measures from the energy efficiency audits completed prior to 2012 in New York and California. Contract revenue for the Engineering Services segment has been and may be further impacted by the decline in the California residential housing market and state and local government budget cuts. A source of revenue in our Engineering Services segment is fees assessed for building permits. Since the second half of fiscal 2007, we have experienced reductions in revenue from these fees because of the slowdown in residential construction in the western United States, and a decline in our other building and safety projects which is both directly and indirectly affected by the housing market. Revenue in the Homeland Security Services segment decreased due to lower levels of activity in the traditional planning, training and exercise consulting services business.

[Table of Contents](#)

Direct costs of contract revenue. Direct costs of contract revenue were \$34.3 million for the six months ended June 29, 2012, with \$9.1 million attributable to the Engineering Services segment, \$22.4 million attributable to the Energy Efficiency Services segment, \$1.8 million attributable to the Public Finance Services segment, and \$1.0 million attributable to the Homeland Security Services segment. Overall, direct costs increased by \$5.2 million, or 18.0%, to \$34.3 million for the six months ended June 29, 2012, from \$29.1 million for the six months ended July 1, 2011. This increase is attributable to increases in direct costs within our Energy Efficiency Services segment and our Public Finance Services segment of \$6.0 million, or 36.8%, and \$0.2 million, or 11.6%, respectively, partially offset by decreases in direct costs of contract revenue of \$0.5 million, or 5.2%, and \$0.5 million, or 31.4%, in our Engineering Services and Homeland Security Services segments, respectively.

Direct costs increased primarily as a result of an increase in subconsultant services used by our Energy Efficiency Services segment of \$8.2 million, partially offset by decreases in salaries and wages and other direct costs of \$1.1 million and \$1.9 million, respectively. Salaries and wages decreased to 24.4% of contract revenue for the six months ended June 29, 2012 from 26.8% for the six months ended July 1, 2011 and subconsultant services increased to 44.9% of contract revenue for the six months ended June 29, 2012 from 28.4% of contract revenue for the six months ended July 1, 2011. In the first half of 2012 there was a concentration of direct installation energy efficiency measures, which resulted in an increase in subconsultant services and other direct costs provided by our subsidiary Willdan Energy Solutions. Salaries and wages categorized as direct costs of contract revenue decreased as a result of decreased chargeability of labor, resulting in more salaries and wages being allocated to general and administrative expenses, and increased use of subconsultants to provide certain services instead of full-time employees. Other direct costs decreased due to lower pass through costs and subcontractor services incurred and not yet billed.

General and administrative expenses. General and administrative expenses increased by \$17.7 million, or 94.3%, to \$36.5 million for the six months ended June 29, 2012 from \$18.8 million for the six months ended July 1, 2011. This reflected increases of \$18.4 million and \$0.1 million in general and administrative expenses of the Energy Efficiency Services, and the Engineering Services segments, respectively, partially offset by decreases of \$0.3 million and \$0.4 million, for our Public Finance Services and Homeland Security Services segments, respectively. Our unallocated corporate expenses remained flat. General and administrative expenses as a percentage of contract revenue was 74.6% for the six months ended June 29, 2012 as compared to 38.7% for the six months ended July 1, 2011.

Of the \$17.7 million increase in general and administrative expenses, approximately \$15.2 million resulted from a goodwill impairment charge we recognized relating to our Energy Efficiency Services segment. See “—Components of Interest and Expense—Goodwill.” Salaries and wages, payroll taxes and employee benefits also increased by \$1.4 million primarily as a result of decreased chargeability of labor. As discussed above under “—Components of Income and Expense—Direct Costs of Contract Revenue,” we do not allocate that portion of salaries and wages not related to time spent directly generating revenue to direct costs of contract revenue and project delays in our Energy Efficiency Services segment resulted in more unallocated time. The remaining \$1.1 million increase primarily relates to other general and administrative expenses and is attributable to increases in provision for uncollectible costs and estimated earnings in excess of billings on uncompleted contracts, other expenses, professional service fees, and marketing expenses.

Loss from operations. As a result of the above factors, our operating loss was \$21.9 million for the six months ended June 29, 2012, as compared to operating income of \$0.7 million for the six months ended July 1, 2011. Loss from operations was primarily due to a goodwill impairment charge of \$15.2 million. Loss from operations as a percentage of contract revenue was 44.7% for the six months ended June 29, 2012, as compared to income from operations as a percentage of contract revenue of 1.4% in the prior year period.

Other expense. Other expense, net was \$71,000 for the six months ended June 29, 2012, as compared to \$31,000 for the six months ended July 1, 2011. The increase is primarily the result of higher interest expense due to increased borrowings under our line of credit.

Income tax (benefit) expense. We recorded an income tax benefit of \$3.6 million for the six months ended June 29, 2012, as compared to income tax expense of \$0.2 million for the six months ended July 1, 2011. We recorded a \$5.3 million valuation allowance for the six months ended June 29, 2012. We believe it is more likely than not that a tax benefit resulting from a net loss will be realized.

Net (loss) income. As a result of the above factors, our net loss was \$18.4 million for the six months ended June 29, 2012 compared to net income of \$0.4 million for the six months ended July 1, 2011. Our net loss for the six months ended June 29, 2012 was impacted significantly by the \$15.2 million impairment charge we recognized during such period.

[Table of Contents](#)

Liquidity and Capital Resources

As of June 29, 2012, we had \$5.5 million of cash and cash equivalents. Our primary source of liquidity is cash generated from operations. We also have funds available under our revolving line of credit with Wells Fargo, that matures on April 1, 2013, but our ability to borrow funds under this line of credit is currently subject to Wells Fargo’s discretion. While we believe that our cash and cash equivalents on hand and cash generated by operating activities will be sufficient to finance our operating activities for at least the next 12 months, if we do experience a cash flow shortage, we may have difficulty obtaining additional funds on favorable terms, if at all, in order to meet obligations as they come due in the normal course of business.

Cash flows from operating activities

Cash flows provided by operating activities were \$0.9 million for the six months ended June 29, 2012 compared to cash flows provided by operating activities of \$1.6 million for the six months ended July 1, 2011. The cash flows provided by operating activities in the six months ended June 29, 2012 were comparatively lower than the cash flows provided by operating activities in the six months ended July 1, 2011, due primarily to lower contract revenues, an increase in accounts receivable and a decrease in accrued liabilities, partially offset by a decrease in costs and estimated earnings in excess of billings on uncompleted contracts and increases in accounts payable and billings in excess of costs and estimated earnings on uncompleted projects.

Cash flows from investing activities

Cash flows used in investing activities were \$0.2 million for the six months ended June 29, 2012 compared to \$0.3 million for the six months ended July 1, 2011. Cash flows used in investing activities decreased primarily due to decreased purchases of equipment and leasehold improvements.

Cash flows from financing activities

Cash flows provided by financing activities were \$1.8 million for the six months ended June 29, 2012 compared to \$0.8 million used in financing activities for the six months ended July 1, 2011. Cash flows provided by financing activities increased by \$2.6 million primarily due to increases in net borrowings under our line of credit during the 2012 period, partially offset by increased payments on our notes payable.

Outstanding indebtedness

We currently have a revolving credit agreement with Wells Fargo, which was entered into on December 23, 2011 and became effective as of January 1, 2012. The credit agreement replaces our prior credit facility with Wells Fargo that expired on January 1, 2012. There were \$3.0 million of outstanding borrowings under this agreement as of June 29, 2012.

Our credit agreement with Wells Fargo provides for a \$5.0 million revolving line of credit, including a \$5.0 million standby letter of credit sub-facility, and matures on April 1, 2013. Loans made under the revolving line of credit will accrue interest at either (i) a floating rate equal to the prime rate in effect from time to time or (ii) a fixed rate of 2.25% above LIBOR, with the interest rate to be selected by us.

Borrowings under the revolving line of credit are guaranteed by all of our subsidiaries except Public Agency Resources (the "Guarantors") and secured by all of our and the Guarantors' accounts receivable and other rights to payment, general intangibles, inventory and equipment. Pursuant to the credit agreement, we also must pay a 0.25% fee on unused commitments and customary fees on any letters of credit drawn under the facility.

The credit agreement contains customary representations and affirmative covenants, including financial covenants that require us to maintain (i) net income after taxes of at least \$250,000, measured on a rolling four quarter basis, without losses in two consecutive quarters; (ii) a maximum ratio of total funded debt (measured as the sum of all obligations for borrowed money, including subordinated debt, plus all capital lease obligations) to EBITDA of 1.75 to 1.00, measured quarterly on a rolling four quarter basis; and (iii) a minimum asset coverage ratio of 2.50 to 1.00 as of each quarter end, measured as unrestricted cash plus net-billed accounts receivables divided by amounts outstanding and issued letters of credit under the revolving line of credit.

[Table of Contents](#)

The credit agreement also includes customary negative covenants, including (i) restrictions on the incurrence of additional indebtedness by us or the Guarantors other than purchase money indebtedness not to exceed \$2.0 million and indebtedness existing on the date of the credit agreement, (ii) restrictions on the payment of dividends on our stock and redemptions, repurchases or other acquisitions of our stock, except that we can repurchase stock with an aggregate fair market value up to \$5.0 million in any calendar year, and (iii) limitations on asset sales, mergers and acquisitions. In addition, the credit agreement includes customary events of default.

As of June 29, 2012, we had breached the net income covenant under the credit agreement because we did not have net income of at least \$250,000 measured on a rolling four quarter basis and we sustained net losses during the last two quarters. Additionally, our ratio of total funded debt to EBITDA violated the limits permitted under the credit agreement.⁽¹⁾ Because of these covenant breaches, our ability to borrow additional funds under the credit agreement is currently subject to Wells Fargo's discretion and Wells Fargo could choose to increase the interest rate by 4.0%, make the loans outstanding under the credit agreement immediately due and payable, and/or terminate its commitments to us under the credit agreement. Although we are seeking a waiver for these covenant breaches and are seeking to amend certain covenants in the credit agreement, Wells Fargo is not obligated to provide any waiver for current or future covenant breaches or modify the terms of the credit agreement.

Contractual obligations

We had \$10,000 in new capital lease obligations and no other material changes in commitments for long-term debt obligations, operating lease obligations or capital lease obligations as of June 29, 2012, as compared to those disclosed in our table of contractual obligations included in our Annual Report on Form 10-K for the year ended December 30, 2011.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

(1) If our ratio of total funded debt to EBITDA, determined on a rolling four quarter basis, exceeds 1.75, Wells Fargo may choose to increase the interest rate of our outstanding indebtedness, make any loans outstanding under the credit agreement immediately due and payable and will no longer be obligated to extend further credit to us. Management therefore believes that presentation of total funded debt to EBITDA is useful to investors because it helps them understand how our total funded debt to EBITDA compares to the financial covenant contained in our credit agreement. Management also reviews the ratio of total funded debt to EBITDA, along with the other financial covenants contained in our credit agreement. As of June 29, 2012, our ratio of total funded debt to EBITDA was negative, which violated the requirement in the credit agreement. Total funded debt is defined as "the sum of all obligations for borrowed money (including subordinated debt) plus all capital lease obligations," and EBITDA is defined as "net profit before tax plus interest expense (net

of capitalized interest expense), depreciation expense and amortization expense.” As a result of the definition of total funded debt in our credit agreement, total funded debt represents our total borrowings under our line of credit, letters of credit, notes payable and capital lease obligations as of June 29, 2012. These definitions may differ from those of other companies reporting similarly named measures. These measures should be considered in addition to, and not as a substitute for or superior to, other measures of financial performance prepared in accordance with U.S. generally accepted accounting principles, or GAAP. Total funded debt and EBITDA are not recognized terms under GAAP and do not purport to be alternatives to any GAAP measures.

The following is a calculation of our ratio of total funded debt to EBITDA:

	<u>Four Quarters Ended June 29, 2012</u>
Total funded debt	\$ 3,768,000
EBITDA	(18,377,000)
Ratio of total funded debt to EBITDA	<u>(0.21)</u>

The following is a reconciliation of EBITDA to net income:

	<u>Four Quarters Ended June 29, 2012</u>
Net loss	\$ (17,001,000)
Income tax benefit	(2,283,000)
Interest expense	97,000
Interest income	(3,000)
Depreciation and amortization	813,000
EBITDA	<u>\$ (18,377,000)</u>

Recent Accounting Pronouncements

As of June 29, 2012, the impact of recent accounting pronouncements on the Company is not expected to be material.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

In addition to current and historical information, this report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to our future operations, prospects, potential products, services, developments and business strategies. These statements can, in some cases, be identified by the use of words like “may,” “will,” “should,” “could,” “would,” “intend,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “potential,” or “continue” or the negative of such terms or other comparable terminology. This report includes, among others, forward-looking statements regarding our:

- Expectations about existing and future clients;
- Expectations about expanded service offerings;
- Expectations about our ability to cross-sell additional services to existing clients;
- Expectations about our intended geographical expansion;
- Expectations about our ability to attract executive officers and key employees;
- Evaluation of the materiality of our current legal proceedings; and
- Expectations about positive cash flow generation and available cash and cash equivalents, including our revolving credit facility, being sufficient to meet normal operating requirements.

These statements involve certain known and unknown risks and uncertainties that could cause our actual results to differ materially from those expressed or implied in our forward-looking statements. Such risks and uncertainties include, among others, those listed in this report. The forward-looking statements in this report, as well as subsequent written and oral forward-looking statements attributable to us or persons acting on our behalf, are hereby expressly qualified in their entirety by the cautionary statements in this report, including the risk factors in our Form 10-K for the year ended December 30, 2011, our Form 10-Q for the quarter ended March 30, 2012, and this Form 10-Q. We do not intend, and undertake no obligation, to update any of our forward-looking statements after the date of this report to reflect actual results or future events or circumstances.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Market risk is the risk of loss to future earnings, to fair values or to future cash flows that may result from changes in the price of a financial instrument. The value of a financial instrument may change as a result of changes in interest rates, exchange rates, commodity prices, equity prices and other market changes. Market risk is attributed to all market risk sensitive financial instruments, including long-term debt.

We had cash and cash equivalents of \$5.5 million as of June 29, 2012. This amount includes \$3.3 million invested in the Wells Fargo Stage Coach Sweep Investment Account and \$1.0 million in the Wells Fargo Money Market Mutual Fund. The balance of \$1.2 million represents cash on hand in business checking accounts. Although these investments are subject to variable interest rates, we do not believe we are subject to significant market risk for these short-term investments.

[Table of Contents](#)

Item 4. Controls and Procedures

We maintain disclosure controls and procedures defined in Rule 13a-15(e) under the Exchange Act, as controls and other procedures that are designed to ensure that information required to be disclosed by the issuer in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that we file or submit under the Securities Exchange Act is accumulated and communicated to our management, including our President and Chief Executive Officer, Thomas Brisbin, and our Chief Financial Officer, Kimberly Gant, as appropriate to allow timely decisions regarding required disclosure.

In connection with the preparation of this Quarterly Report, an evaluation was performed under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of our disclosure controls and procedures as of June 29, 2012. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective, at a reasonable assurance level, as of June 29, 2012. No change in our internal control over financial reporting occurred during the period covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are subject to claims and lawsuits from time to time, including those alleging professional errors or omissions that arise in the ordinary course of business against firms, like ours, that operate in the engineering and consulting professions. We carry professional liability insurance, subject to certain deductibles and policy limits, for such claims as they arise and may from time to time establish reserves for litigation that is considered probable of a loss.

In accordance with accounting standards regarding loss contingencies, we accrue an undiscounted liability for those contingencies where the incurrence of a loss is probable and the amount can be reasonably estimated, and we disclose the amount accrued and an estimate of any reasonably possible loss in excess of the amount accrued, if such disclosure is necessary for our financial statements not to be misleading. We do not accrue liabilities when the likelihood that the liability has been incurred is probable but the amount cannot be reasonably estimated, or when the liability is believed to be only reasonably possible or remote.

Because litigation outcomes are inherently unpredictable, our evaluation of legal proceedings often involves a series of complex assessments by management about future events and can rely heavily on estimates and assumptions. If the assessments indicate that loss contingencies that could be material to any one of our financial statements are not probable, but are reasonably possible, or are probable, but cannot be estimated, then we disclose the nature of the loss contingencies, together with an estimate of the possible loss or a statement that such loss is not reasonably estimable. While the consequences of certain unresolved proceedings are not presently determinable, and a reasonable estimate of the probable and reasonably possible loss or range of loss in excess of amounts accrued for such proceedings cannot be made, an adverse outcome from such proceedings could have a material adverse effect on our earnings in any given reporting period. However, in the opinion of our management, after consulting with legal counsel, and taking into account insurance coverage, the ultimate liability related to current outstanding claims and lawsuits is not expected to have a material adverse effect on our financial statements.

French v. Willdan Engineering, Superior Court of California, Riverside County

In January 1991, we were originally retained by the City of Calimesa, California to review and process development plans. We have provided plan review continuously since that date under various contracts with the city. As the city receives applications from developers for project approvals, the city forwards the project plans to us for processing. We process the plans and the city pays us for our services. In August 2008, a suit was filed by a city employee alleging that the city processed development applications without first collecting fees from developers to cover the costs of processing. The suit further alleged that even though we performed the work requested by the city, the city should not have paid us for our work in advance of collecting the developers' fees. The plaintiff sought to recover for the city amounts paid to us for processing project plans for which the developer fees have not been paid. On January 11, 2012, this suit proceeded to trial where we prevailed. The plaintiff has filed an appeal.

Item 1A. Risk Factors

We may not be able to obtain capital when desired on favorable terms, if at all, or without dilution to our stockholders, which may impact our ability to execute on our current or future business strategies. Additionally, we have recently breached covenants under our revolving credit agreement with Wells Fargo, so Wells Fargo could choose to accelerate the loans outstanding under the credit facility and terminate its commitments under the facility.

We anticipate that our current cash, cash equivalents and cash provided by operating activities will be sufficient to meet our current and anticipated needs for general corporate purposes during the next 12 months. It is possible, however, that we may not generate sufficient cash flow from operations or otherwise have the capital resources to meet our future capital needs. As of June 29, 2012, we had borrowed \$3.0 million of the \$5.0 million available under our revolving credit facility with Wells Fargo, but our ability to borrow additional funds under our revolving credit facility is subject to Wells Fargo's discretion because we were in breach of certain covenants at June 29, 2012. As of June 29, 2012, we had breached the net income covenant in our revolving credit facility because we did not have net income of at least \$250,000 measured on a rolling four quarter basis and we had sustained net losses during the last two quarters. Additionally, our ratio of total funded debt to EBITDA violated the limits permitted under the credit agreement. Because of these covenant breaches, Wells Fargo also could choose to increase the interest rate by 4.0%, make the loans outstanding under the credit agreement immediately due and

payable, and/or terminate its commitments to us under the credit agreement. Although we are seeking a waiver for these covenant breaches and are seeking to amend certain covenants in the credit agreement, Wells Fargo is not obligated to provide any waiver for current or future covenant breaches or modify the terms of the credit agreement. In the course of obtaining such waivers or modifications, Wells Fargo may require modifications to the facility on terms that are not favorable to us. Wells Fargo may also refuse to renew the facility when it expires in April 2013. See “Management’s Discussion and Analysis of Financial Condition and Results of Operation—Outstanding Indebtedness.”

If we do not generate sufficient cash flow from operations or otherwise, we may need additional financing to execute on our current or future business strategies, including hiring additional personnel, developing new or enhancing existing service lines, expanding our business geographically, enhancing our operating infrastructure, acquiring complementary businesses, or otherwise responding to competitive pressures. We cannot assure you that additional financing will be available to us on favorable terms, or at all. The financial covenants in our revolving credit agreement also restrict our ability to incur additional indebtedness, which may impair our ability to pursue acquisitions or otherwise execute on our business strategies. Furthermore, if we raise additional funds through the issuance of convertible debt or equity securities, the percentage ownership of our stockholders could be significantly diluted, and these newly issued securities may have rights, preferences or privileges senior to those of existing stockholders. If adequate funds are not available or are not available on acceptable terms, if and when needed, our ability to fund our operations, meet obligations in the normal course of business, take advantage of strategic opportunities, or otherwise respond to competitive pressures would be significantly limited.

We depend on a limited number of clients for a significant portion of our business.

Our largest client, Consolidated Edison Company of New York, accounted for approximately 30.4% and 26.8% of our consolidated contract revenue in for the six months ended June 29, 2012 and July 1, 2011, respectively. This revenue primarily relates to a contract we entered into in fiscal 2009 with Consolidated Edison, which has since terminated. We entered into a new contract with Consolidated Edison on July 9, 2012. Our top five customers collectively accounted for approximately 51.8% of our revenue for the six months ended June 29, 2012, but this contract is for fewer services than the 2009 contract with Consolidated Edison. The loss of, or reduction in orders from, these clients could have a material adverse effect on our business, financial condition and results of operations.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults upon Senior Securities

None.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

None.

SECTION 302 CERTIFICATION OF CHIEF EXECUTIVE OFFICER

I, Thomas D. Brisbin, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Willdan Group, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Chief Financial Officer and Senior Vice President and Treasurer

**Certification of Chief Executive Officer and Chief Financial Officer Pursuant to 18 U.S.C. 1350,
as Adopted Pursuant to § 906 of the Sarbanes-Oxley Act of 2002**

In connection with the Quarterly Report on Form 10-Q of Willdan Group, Inc. (the "Company") for the quarterly period ended June 29, 2012, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), Thomas D. Brisbin, as President and Chief Executive Officer of the Company, and Kimberly D. Gant, as Chief Financial Officer and Senior Vice President of the Company, each hereby certifies, pursuant to 18 U.S.C. § 1350, as adopted pursuant to § 906 of the Sarbanes-Oxley Act of 2002, that, to the best of his or her knowledge:

- (1) The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934; and
- (2) The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company.
